Subject: Recommendation Letter for master's degree program

Dear Members of the Admissions Committee,

It is my pleasure to recommend Ms. Hala Rami ZouZou for admission to your esteemed Master's program. I have had the opportunity to teach Ms. ZouZou in several courses during her BSc in Computer Science at Canadian University Dubai, including **BCS 201 – Logic for Computing (Grade: A)**, **BCS 221 – Communication Networks (Grade: B+)**, and **BCS 303 – Security Principles and Practices (Grade: A)**.

Throughout these courses, Ms. ZouZou distinguished herself as a highly motivated and capable student. In **Logic for Computing**, she demonstrated strong analytical and problem-solving abilities, consistently producing well-structured and precise solutions. In **Communication Networks**, she showed a solid grasp of complex networking concepts and an ability to apply theoretical knowledge to practical scenarios. Her outstanding performance in **Security Principles and Practices** reflected not only her academic strength but also her keen interest in cybersecurity, where she excelled in both theoretical understanding and applied security practices.

Beyond her academic achievements, Ms. ZouZou has consistently shown intellectual curiosity, perseverance, and a capacity to work independently as well as collaboratively. She approaches challenges with maturity and determination, qualities that will serve her well in a rigorous graduate program. She also volunteered to actively participate in organizing the graduate ceremony of the university which shows her willingness to contribute to her community as well.

I am confident that Ms. ZouZou has the academic foundation, intellectual drive, and professional promise to succeed in advanced studies and to contribute meaningfully to your program. I strongly recommend her for admission to your Master's program without any reservations.

Please feel free to contact me if further information is required.

Cordially, 

Dr. Yasir Faheem

Associate Professor,

School of Engineering, Applied Science and Technology,

Canadian University Dubai,

Dubai, UAE
